

# PFREUNDT WK60

## The new weighing electronics system with Touch-Display

With PFREUNDT scales you always know how much material is being moved – this saves time, lowers costs and improves operations.

**Simple installation  
for all applications!**

Example wheel loader display

- Compact and robust
- Intuitive Operator Interface
- RAM Mount Installation
- Modern interfaces
- Global data access

### Quick overview

### Connections

- ① Antenna connections (GPRS, WLAN) and GPS positioning
- ② External interfaces plus power supply
  - N1 - N3 proximity sensor ports
  - CAN1 for connection of digital pressure sensors
  - CAN2 for communication with the on-board electronics
  - ADW for inclination measurement
  - MIO1 and MIO2 for connection of, for example, foot switches

### Features

- Plug connections for pressure sensors and proximity switches
- Capacitive 7"-Touch-Display with reinforced safety glass
- Operator interface comparable to smartphone or tablet.
- Interfaces for printers (RS232), network (LAN), CAN-Bus, Multi-I/O, power supply as well as radio data transmission via WLAN, GPRS and GPS positioning
- Master data and user administration
- Calibration data storage for multiple attachments
- Connection to the PFREUNDT Web Portal
