

The WK60 excavator scale

1 Weighing electronics

2 Pressure sensors

3 Inclination sensor

Weighing directly during material handling

The PFREUNDT excavator scale enables to weigh directly during the work process and thus fast and accurate loading of transport vehicles. The excavator scale ensures transparency in the material flow and can be retrofitted at any time in excavators of all manufacturer types.*

Overview of functions

- Highly precise weighing technology for use under the toughest conditions
- Dynamic weighing in the work process for a faster and more accurate loading
- Simple and intuitive operation through touch display
- Extensive and adaptable master and weighing data management
- Installation or retrofitting in various manufacturer vehicles is possible without any problems
- Fast availability of weighing data, even with a high number of short load cycles

Scope of delivery

- WK60 weighing electronics
- 4 digital pressure sensors
- 4 inclination sensors
- 1 antenna

Accessories

- Printer
- Weighing tickets and weighing ticket box

* Installation only possible in excavators with mono booms.

Start your digital future with PFREUNDT!

We create the connections and interfaces you need, e.g. via GPS, mobile radio, WLAN and Bluetooth.
